

Purchasing airline tickets is now even easier

2022 19 July

Uzbekistan Airways has launched an app for purchasing airline tickets. It is now much more convenient to purchase them online. In addition, the app allows the passenger to purchase additional services, such as ticket checking, seat selection, extra baggage and special meals, as well as special offers on certain routes are available for each user.

Your feedback will help us to make the application better and your ticketing experience more comfortable. Download «UzAirways» app in App Store and Google Play.
