

Attention to passengers departing from the airport in Tashkent

2024 3 May

Check-in for international flights ends 1 hour before departure, for domestic flights – 30 minutes before departure!

Due to increasing number of cases of passengers being late for flights, we remind you that when purchasing an air ticket, a passenger enters into a Passenger Transportation Agreement. According to it, the airline undertakes to carry the passenger and luggage along the designated route. The passenger, in turn, undertakes to comply with the rules required for safe transportation. One of them is check-in for the flight.

Passengers are kindly requested to arrive at the airport in advance, considering the time required for pre-flight procedures. The main terms and conditions of the Contract of Carriage are reflected in the public offer posted on the official website of the airline.
