

“Uzbekistan Airways” JSC participates in Kiev exhibition

2021 5 October

“Uzbekistan Airways” JSC participates in the UITM-2021 (Ukrainian International Travel Market) exhibition, which takes place in Kiev from October 5 to 6. It is important to note that this exhibition is the first for the Uzbekistan Airways team for the current year, where the main topic was the restoration of the Tashkent-Kiev-Tashkent flight.

The UITM-2021 exhibition is held annually and serves as an effective international platform for the consolidation and generalization of tourism industry professionals from Ukraine and abroad. Every year, Ukrainian International Travel Market brings together hundreds of participating companies, delegates to hotels, resorts, airlines and airports, as well as representatives of international and national travel organizations, diplomats, government ministries and departments, agents of related industries from Ukraine and 20 countries. The events are attended by a thousand B2B audiences from all regions of Ukraine and other countries.

It is important to note that on September 26, Boryspil International Airport met with a water arch an aircraft of “Uzbekistan Airways” after performing its first flight in the direction of Tashkent-Kiev. Regular flights between two countries resumed after 6 years and will be operated again every Sunday.
